EXPERIENCE

Aster Gaze Technologies

Basbhari, Kathmandu

Product Designer

March 2025- Present

- Spearheading design systems and AI-centric product interfaces for enterprise clients.
- Played a key role in strategic product discussions, helping shape roadmap priorities based on user data and business impact.
- Introduced micro-interaction libraries and accessibility standards that elevated the overall UX maturity of the product suite.
- Collaborated with a cross-functional team including AI engineers, product managers, and developers to align user needs with technical feasibility and business goals.

Vrit Technologies

Shankhamul, Kathmandu

UX/UI Designer

Aug 2024 – Feb 2025

- Designed high-fidelity wireframes and advanced prototypes for B2B and CRM systems.
- Conducted user interviews to drive design improvements, enhancing usability.
- Enhanced product usability through micro-interactions and responsive layouts.
- Led client meetings to present design concepts and integrate feedback.
- Redesigned CRM interface using Figma, reducing user onboarding time by 20%.

- Delivered visually appealing, user-friendly designs for NGO and media platforms.
- Managed projects independently, leading teams from ideation to delivery.
- Created wireframes and prototypes using Figma for efficient team collaboration.

PROJECTS

Bidyarthi AI

March 2025

- End-to-end study abroad application platform for Nepali students.
- Created and maintained a scalable design system, ensuring consistent UI patterns, reusable components, and faster handoffs for cross-functional teams.
- Redesigned multiple core pages including application forms, student dashboards, significantly improving usability and visual clarity.
- Played a key role in strategic product discussions, using insights from user research, analytics, and market trends to shape roadmap priorities and feature scoping.

Intense Team

Jan 2025

Time-tracking SaaS tool tailored for employers and remote teams.

- Designed a sleek, conversion-optimized landing page with clear value propositions and pricing tiers.
- Integrated modern UI patterns and subtle animations to enhance engagement.

College Info Nepal – UI/UX Design Project

November 2024

- Designed a sophisticated CRM interface and dynamic landing page tailored for tech-savvy students.
- Integrated interactive elements and modern UI patterns to enhance engagement and usability.
- Adopted a minimal yet dynamic visual approach, ensuring a seamless and captivating user experience.

Vrit Jobs – Web & UI/UX Design Project

Sept 2024

- Crafted a comprehensive job portal featuring distinct user profiles for admin, employers, and job seekers.
- Implemented advanced job filtering options and a structured CRM system to streamline recruitment processes.
- Integrated subtle micro-animations to enhance user interactions, elevating the overall engagement and experience.

Mitini: Besties Forever – Website & UI/UX Design

July 2024

- Created an emotionally engaging landing page for a social initiative promoting women's friendship, support, and community awareness.
- Focused on crafting a warm, accessible, and inclusive visual language through thoughtful typography, color palettes, and iconography.

Vision Three Sixty – Website & UI/UX Design

May 2024

- Designed a clean, narrative-driven landing page for an NGO focused on holistic youth development and leadership.
- Developed wireframes, UI components, and responsive layouts to ensure optimal performance across devices.
